Conducted **287** hours of management training with **242** management staff

PHARMACY

Fulfilled **49** deliveries of medicines, valued at **\$34,656**, for partner facilities this quarter.

Training Modules Completed by Partners

LIFENET HIGHLIGHTS & UPDATES FROM THE FIELD

- ▶ LN Executive Director, Stefanie Weiland, presented a poster about quality care for mothers & newborns at the Institute for Public Health's 10th Annual Conference
- ▶ Burundi Country Director Gloria Havyarimana was selected to participate in the INSEAD and Johnson & Johnson Strategic Innovation for Community Health Program

"I was working in the maternity ward when a patient came in active labor. This woman had edema and complained of a horrible headache. I had recently attended an LN lesson on preeclampsia, so I took her blood pressure and ordered a proteinuria test. I was correct in my diagnosis and soon the woman began convulsing. I felt prepared because of the administration protocol LifeNet had taught us and I gave the woman magnesium sulfate. Once she was stable, we transferred her to a larger hospital. Had it not been for the LN training on preeclampsia I would not have been able to administer the proper dose and save the patient." - Nurse at Gitega Hope Polyclinic (Burundi)

KEY PERFORMANCE INDICATORS - MANAGEMENT

The graphs below depict partner performance on key performance indicators from their most recent evaluation. Only health facilities that have completed the respective module are included in these results.

■ Baseline ■ Post Training

1 - MANAGEMENT BASICS

Daily Financial Tracking: Revenue and expenditure tracked daily
