“I was recently called into a caesarean section due to fetal distress—the baby did not scream at birth. Thanks to what we learned in your infant CPR lesson, I put into practice what we learned from you, and our work led to successfully bringing the baby back to life. **When the baby finally cried, we too cried tears of joy.**”

-Jean de Dieu
Nurse, DRC

PATIENT STORY

MEET STELLA & JADE

241

In 2019, health workers in our partner facilities **saved 241 newborns** by implementing the infant CPR they learned from LifeNet.

“During my delivery, I had complications and the baby was born weak, tired, and needed help to breathe. **Thankfully, God was on our side. The health workers acted quickly and were able to work on him and resuscitate him in a short time.** Baby Jade perked up and was healthy within a few hours. We started breastfeeding and he has had no other issues thanks to the care we received.

I am very thankful to Nkoni Health Centre. Unlike other facilities I’ve visited, the Nkoni health workers are caring and they were there for me throughout my pregnancy and in my difficult delivery.” **-Stella Matovu, a new mom who gave birth to her son Jade at Nkoni Health Centre, a LifeNet partner in Uganda.**

"Before LifeNet trainings, we used to suffer from the loss of expired drugs and many stockout days because we were not able to order the needed drugs in good time. But now, we perfectly plan our ordering and have good needed stock all the time. Thank you!"

-Tamalesi Mtola, Mikondo Health Center, Malawi

SPECIAL REPORT

PARTNER FACILITIES INCREASE REVENUE

Special Report: Financial Study of 27 Partner Health Facilities in Uganda Reveals an Increase in Revenue Thanks to LifeNet Partnership

In a recent study of data gathered from 27 partner facilities in Uganda from Q1 2018 - Q4 2019, facilities increased revenue by 66%, leading to an average \$1,339 increase in monthly revenue per facility. In the same time frame, the average monthly balance per facility increased by 358%.

LifeNet Management and Medical Training is equipping health facility staffs with the knowledge and tools they need to balance their budgets, keep accurate financial records, attract new patients, and increase their revenue.

LIFENET NEWS

- **LifeNet reached 8 million patient visits improved since 2012** in Q4 2019. Since beginning its operations in 2012, LifeNet has doubled the quality of care in patient visits in Burundi, Uganda, DR Congo, and Malawi.
- **Gérard Nshimirimana promoted to DRC Country Director.** "I am thrilled to promote Gérard to the role of DRC Country Director. Since coming to LifeNet, Gérard has demonstrated an ability to learn quickly and manage others well," said VP of Programs David Scheiman.

FACES OF LIFENET

Ssali Edward Tamale is a Management Trainer in the LifeNet Uganda office. He holds a master's degree in international relations and diplomatic studies. Edward is thankful for the opportunity to use his management skills to contribute to improvements in the health sector in Uganda. In addition to his work with LifeNet, Edward enjoys good conversations with family and friends.

"I will always remember the day I went to train staff at Kitokolo Health Centre. Before I got off the truck, the In-Charge and cashier came running to meet me, excited to show me how they had put our previous lesson on financial record keeping into practice. It was such a fulfilling experience."

-Ssali Edward Tamale, Uganda Management Trainer
