

# 8 YEARS. 10 MILLION PATIENT VISITS.

LifeNet International celebrates 10 million patient visits improved since 2012

## LIFENET IS TRANSFORMING AFRICAN HEALTHCARE

Since 2012, LifeNet's asset-based model of healthcare improvement has transformed healthcare in local, faith-based health facilities through **training, mentoring, and access to equipment & pharmaceuticals.**

## SAVING LIVES SINCE 2012

Trained health workers are able to treat and manage postpartum hemorrhages, perform infant CPR, prevent & treat infectious diseases, and provide the high-quality care their patients need to lead healthy & whole lives. Last year alone, health workers saved 241 babies' lives using the infant CPR training they learned from LifeNet.

## 4 COUNTRIES. 240 HEALTH FACILITIES 1,479 HEALTH WORKERS.

In 2012, LifeNet launched its program among 10 facility partners in Burundi. Today, LifeNet is transforming care in 240 health facility partners in Burundi, Uganda, DR Congo, and Malawi, training 1,479 health workers.

## EVERY PERSON SHOULD HAVE A CHANCE TO LIVE

"After an emergency c-section, the baby did not scream at birth. I helped another nurse put into practice what we learned from you, and our work led to successfully bringing the baby back to life. **When the baby finally cried, we too cried tears of joy.**"

-Nurse Jean de Dieu  
Nundu Reference Hospital in the DRC

TRANSFORMING AFRICAN HEALTHCARE.  
SAVING LIVES.
