

# 11 YEARS. 30 MILLION PATIENT VISITS.

LifeNet International celebrates  
30 million patient visits, since 2012

## LIFENET IS TRANSFORMING AFRICAN HEALTHCARE

Since 2012, LifeNet's asset-based model of healthcare improvement has transformed healthcare in local, faith-based health facilities through **training, supportive supervision, and improved access to equipment & pharmaceuticals.**

## SAVING LIVES SINCE 2012

Trained healthcare providers are able to treat and manage postpartum hemorrhages, perform infant CPR, prevent & treat infectious diseases, and provide the high-quality care their patients need to lead healthy & whole lives. Last year alone, healthcare providers **saved 3,984 mothers' and babies' lives at birth**, using the skills they learned from LifeNet.

## 6 COUNTRIES 410+ HEALTH FACILITIES 4,222 HEALTHCARE PROVIDERS

In 2012, LifeNet launched its program among 10 facility partners in Burundi. Today, LifeNet is transforming care in **410+ health facility partners** in Burundi, Uganda, DR Congo, Ghana, Kenya, and Malawi, training 4,222 healthcare providers.

## EVERY PERSON SHOULD HAVE A CHANCE TO LIVE

"The up-to-date knowledge we receive is helping us save lives. I delivered a baby born in pain and without breath. Her body color was blue. Without delay, **I applied the neonatal resuscitation I learned from LifeNet.** After just one minute of performing CPR, the newborn began to breathe and cry. Many thanks to LifeNet, who taught me."

-Dyna Curinyana  
Deputy of CDS Mushasha Hospital, Burundi

TRANSFORMING AFRICAN HEALTHCARE.  
SAVING LIVES.
